Pioneering the legal industry

"LexisNexis Practical Guidance is a pioneer in the legal industry. This has come to the fore with the introduction of their new module, Personal Injury NSW, bringing to market a solution that will have a direct and clear impact in assisting personal injury and compensation lawyers to understand their role in the ever changing field. As a personal injury practitioner of over 23 years, I can see how Personal Injury NSW will play a pivotal role in transforming the industry, through its guidance, resources and world-leading automated technologies."

Dr Tim Channon, Partner, Hicksons

LexisNexis Practical Guidance – Personal Injury NSW Toolkit

Our brand new, specialised Personal Injury NSW Toolkit includes seven purpose-built personal injury calculators that automate damages calculations, meaning you no longer have to spend hours performing complex calculations manually. Eliminate time spent trawling different sources looking for answers to medical queries with fast access to a range of medical tools.

Personal Injury NSW Calculators

Never before has calculating damages in personal injury matters been so effortless.

Designed to enable lawyers to speedily and accurately calculate damages in personal injury matters, the calculators cover the assessment of damages under the Motor Accidents Compensation Act 1999 (NSW), Civil Liability Act 2002 (NSW) and Pt 5 of the Workers Compensation Act 1987 (NSW).

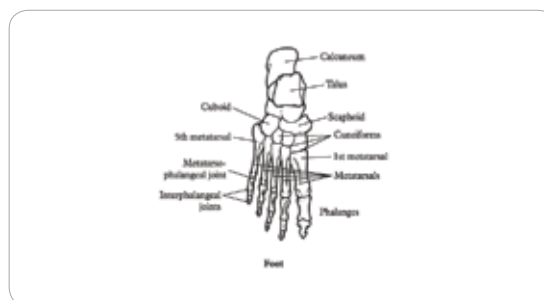

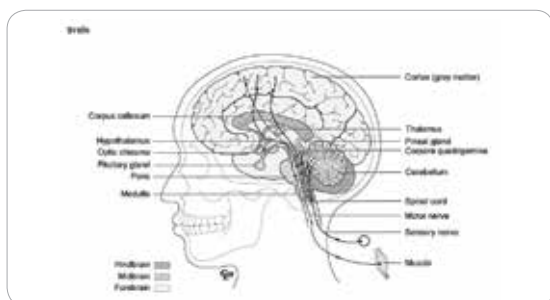

This groundbreaking application can be used to calculate:

- Non-economic loss
- Past and future care and assistance
- Past and future economic loss
- Past and future out-of-pocket expenses

Medical Tools

Quickly and easily interpret terms found in medical reports and clinical notes through detailed medical diagrams, a list of 500 clinical abbreviations and a glossary that defines over 1300 medical terms.
